

Stefano Peloso

About me

I'm a passionate and quick learner, always looking for the next challenge and for something new to create. As a little boy I used to figure my future self as a mad scientist, but I then discovered that crafting web stuff is much more fun than building death rays.

Education

Computer science high school at Liceo E. Bérard in Aosta

Computer engineering at Politecnico di Milano

Mathematics at Milan University

Attended several web industry workshops and conferences

Employment history

2001:

Freelance full stack web developer

As a freelancer between 2001 and 2004 I've created dozens of websites and web applications for various companies and public administration.

2004:

Senior full stack web developer at Storia della musica

From 2004 to 2006 I crafted a complex custom editorial CMS, BE, and FE for an Italian magazine.

2006:

Senior full stack web developer at Reverse

From 2006 to 2010 I've been in charge of the web development for every client of this communication agency.

2010:

Senior full stack web developer at Simonetti Studio

From 2010 to 2013 I've been in charge of the web development for every client of this communication agency.

2013:

JavaScript Architect at Sky Deutschland

I've been in charge of structuring the JavaScript code for the complete 2015 refactoring of sky.de, which included many advanced UI components and BE helpers for core content delivery.

2015:

Senior JavaScript developer at Modo

I've been a consultant for many high profile clients (banks, airlines, automotive, broadcasters, newspapers, etc) and helped them with their advanced JavaScript needs.

2017:

Freelance Front End consultant

I've assisted various teams and agencies with particular web projects which required cutting edge technology.

TEACHING

I also have university-grade teaching experiences.

From 2002 to 2004 I've been a computer science mentor at University of Milano-Bicocca, helping students in one on one and group sessions.

From 2010 to 2013 I've been an associated teacher at IED College in Turin, where I both taught regular courses and organized specific workshops.

Competences

LANGUAGES SPOKEN:

- Italian
- English
- French

? I HAVE ADVANCED KNOWLEDGE OF:

- Angular
- Browser engine specific quirks
- CSS
